Upload Answer Files

SofTest will auto-upload your answer file(s). To do so, turn on your computer, connect to the Internet and double click the SofTest icon.

Upload Confirmation

ExamSoft provides three methods for verifying that your answer file uploaded.

The first two options will display the Exam Download/Upload History page, which is a detailed report of your account activity; it includes the date and time every exam is downloaded and uploaded. You may print a copy of this page if you need a confirmation of the upload:

Option 1: Launch SofTest, click 'Exam History' and enter your login information. This will display your Exam Download/Upload History on your Internet web browser.

Option 2: Visit your Institution's Custom Home Page (CHP) and enter your login information. Once logged in, click the 'Exam History' button.

Option 3: You will be emailed confirmation that your answer file uploaded.
